*These numbers are very likely to change as some running for other offices will be defeated and some members may lose in primary or general elections; averages for these columns do not include the totals for the 113th Congress. **For the 113th Congress, the figure is the number who are running or have run for other offices (Republican Rep. Steve Stockman recently lost in a Senate primary); for all others, it's the number defeated in runs for other offices. The data above excludes representatives of U.S. territories.
